

Dear Visitor!

I warmly welcome you to the website of the Ószirózsa Integrated Social Institution in Pest County.

Our integrated institution was established on November 1, 2016, through the merger of the Ószirózsa Retirement Home, the Fehér Hattyú Retirement Home, the Péceli Retirement Home, and the Válaszút Addiction Treatment and Rehabilitation Center.

The headquarters of the Ószirózsa Integrated Social Institution of Pest County is located in Tura, with branches in Szentlőrinc-káta, Pécel, and Tóalmás.

The integrated institution's nursing-care, healthcare, mental hygiene, as well as economic, technical, and financial activities are overseen by the central professional management operating at the headquarters, which also provides guidance for the branch locations. The central professional management operates through the director, deputy director, head nurse, head of mental hygiene, financial coordinator, and head of catering.

The institution provides residential nursing and care services for elderly and addicted individuals with a total capacity of 285 residents, as well as rehabilitation services for people with addictions with a capacity of 30 residents.

In our long-term residential facilities, we ensure comprehensive care for all residents.

Together with my colleagues, our goal is to provide our residents with personalized, high-quality care tailored to their condition and care needs.

Nikoletta Sipos

Director
